The inquiries are, first, is it a fact of my habitation and tame, as a thred in the communication; second, is if true of all therein contained; third does my hair still continue to be in good order and of astural color? To all I can and will asswer my ariably yes. My hair is even better than in any stage of my life for forty years past, more soft thrifty and better colored; the seme is true of my whiskers, and the only cause why it is not generally true is that the substance is wested off by frequent ablution of the face, when if care were used by wiping the face, in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if me hair still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as well as this, it has no doubt been basely mittated and been used, not only without any good turto absolute injury. I have not used any of your Pestorative of any account for some months, and yet my hair is as good as ever, and hundreds have eximined it with surprise, as I am now 61 years old and not a gray hair in my bead or on my face; and to prove this fact. I send you a lock of my hair, taken off the past wick. I received your favor of two quart bottles last summer for which I am very grateful: I gave it to my friences and thereby induced them to try it, many were skeptic custil after trial, and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative sold by many. I fear without authority from you. A pure article will impress the ininventor of the good. THEY contain all the Improvements which are in all the first class stoves, and the advantages and improvements over other stoves are in part as follows:

1st. The arrangement for broiling on the frost hearth, —an improvement overlooked in other first class stoves. It has also the same avrangement for broiling on top.

21 A thorough ventilation of the Oven.

33. Introducing but air draught to the first chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a matter much and justly complained of in other Stoves.

4th. An important improvement in the application of the damper, which throws the heat around the oven.

5th. Much greater weight, consequently heavier plates, and more durable as well as handsomer eastings.

6th. A draft damper at each end of the fire box, so that the fire is equalized, and one pidle will heat as quick as the other, also heating the oven in half the time.

7th. Fire back protected by soap-stone, so it cannot burn out.

Middelebury, April 27th, 1859.—The Legislature of Ver. Middelebury, April 27th, 1859.—The Legislature of Vermont at its last session passed a law making it the duty of County Judges to procure Fire Proof Safes, in which to deposite Probate Records. In discharge of that duty we have spen some time in examineing a number of Safes we have come to the conclusion that the Marland Safe manufactured by M. B. Bigelow & Anson Hardy of Boston, Mass., is superior to any other we have examined, for its Fire Proof qualities. We have bought a safe of that description for the New Haven Probate District, and are well extisfied with his workmanship, apparant strength and do:

I believe it to be one of its less Caugh Remedies ever prepared. Besides its value as in Cough medicine I have good reason to believe it to be all it claims to be for Kidney Diseases and Diabetes.

An aged man in Danvers. Mass., heard of the Compound, as a wonderful curative for kidney complaints Bring a grest sufferer from that difficulty, he sent to the Apothecary fortwo bottles. They curred him. He said they were worth fifty dollars. He has since soid a good many bottles himself.

The second case was that of a business man, in Salem. Mass. He was also curred of the rame complaint. After-

"July, 1869. Dis. Poland:—Mr. J. C. Butterfield, dr. who sells your Medicine, has requested me to give a brief statement of what your White Pile Composed has dore for me. I had been afflicted with the Kidney Complaint for a long time, and had a had Cough of the plaint for a long time, and had a had Cough of the year's standing, which caused me to spit blood quite frequently. No one of my acquaintances expected that I should ever get my health again. But mo butles of your White Pine Compound have cured me of both the Cough and the kidney Complaint.

I would also state, that a lady, a neighbor of ourswasse badly afflicted with a cough, that she sat un only long enough to have her bed made, and we all thought she was going in a quick consumption. She took only one bottle of your Compound as dictured her. She is just as well now as she e er was. STEPHEN BARILETT,
